

# DL 763

CHU 2250 | RM 75

DL 763 is a broadly adapted hybrid suited to the earliest corn acres. DL 763 starts strong with excellent early vigour. Ears hang down and husks flare well at maturity. DL 763 produces high test weight dent kernels for fast drying. Excellent stalks and roots make harvest easy. Overall, this is an all-round excellent, high yielding, early hybrid for any farm operation.
